# Hoteligy
## upselling experience

## Hoteligy Touch Platform

*Fully automated terminal with integrated functions. Its large screen makes it the best marketing tool to boost upselling and promote the reservations of your restaurants, Balinese beds and other products and / or services offered.*

### Flight information
It allows the guest to check the flight status of the nearby airports in real time.

### Restaurant Bookings
Allow your customers to book a table in the hotel restaurants from any interactive screen.

### Upselling
Promote upgrades available to hotel customers.
Want better views?

### Meteorological Forecast
Full weather forecast for both the hotel area and other nearby municipalities.

### Bookings of Balinese Beds
Reserve sun beds and balinese beds at the pool or beach, from any of the touch terminals.

### Hotel Information
All relevant information about the hotel collected in one place. History, phone numbers, services, environmental policy, etc.

### Surveys and Valuations
Allow your customers to conduct quality surveys, being able to configure the questions from the backoffice itself.

### Activities Agenda
Complete activities agenda providing information of the daytime and night time entertainment program, organized by categories. Add visual content such as photos, videos and text for each event.

### Places of interest
Complete tourist guide on the different points of interest in the area, accompanied by text, videos and HD images.
